vs.	)	<b>PROPOSED ORDER CONCERNING</b>

WALKER RIVER IRRIGATION DISTRICT,	)

Defendants	)	

In its Case Management Order (#108), the Court directed that “the U.S./Tribe shall effect service of their respective First Amended Counterclaims, notices in lieu of summons, requests for waiver of service, and the within Case Management Order” on all members of nine categories of water rights holders described in paragraph 3 of the CMO. After extensive research and service efforts, the United States is in the process of completing these service efforts. One issue that the parties have raised with the Court is the designation of a cut-off date respecting the water rights to be included in this action.

IT IS HEREBY ORDERED that this proceeding addresses water rights in existence as of December 31, 2009, for which water rights holders are subject to service as designated by paragraph 3 of the CMO. The parties agree that the only water rights that might be created after December 2009 are certain domestic rights associated with groundwater use.

IT IS SO ORDERED.
